

Bubble integrals with vanishing or degenerate internal masses

Page contributed by [R.K. Ellis](#)

We have the following results for bubble integrals with vanishing or degenerate internal masses

1. $I_2^{\{D=4-2\epsilon\}}(s; 0, 0)$
2. $I_2^{\{D=4-2\epsilon\}}(m^2; 0, m^2)$
3. $I_2^{\{D=4-2\epsilon\}}(s; 0, m^2)$
4. $I_2^{\{D=4\}}(s; m^2, m^2)$
